FISHY BUSINESS

Is it safe to go into the water? Some strange things emerge from the depths in a weekend brimful of films and fun.

Plunge in on Friday evening for drinks, snacks and music, followed by **WHEN PIGS HAVE WINGS**, 'a comic cry of rage' about the predicament faced by a Muslim fisherman in Gaza when he hauls in a live pig.

PONYO is a weird and wonderful animation about a boy and a goldfish who wants to be a human, while in **POND LIFE** an engaging group of Yorkshire teenagers hunt for a giant carp said to be lurking in a local pond.

On Sunday afternoon Colin Farrell stars in **ONDINE**, a beguiling mix of comedy, fantasy and thriller, involving yet another strange catch.

THE LOST WORLD OF MR HARDY, a documentary featuring a legendary fishing-tackle business, makes fascinating viewing for anglers and non- anglers alike.

Book early for **THE YOUNG INDIES SHORT FILM COMPETITION**, **DEWAR'S PRESENTS** (*films and Q&A'S with top Palme Dewar directors*) and Saturday's **FESTIVE BUFFET** at the Birks. Mark the dates in your diary and keep an eye on our website, Facebook pages and Birks Cinema publicity.
