

Free Workshops for Young Filmmakers!

**Aberfeldy
Film
Festival**

How would you like to make your own movies?

We're offering two exciting **free** workshops to set you on your way. Each workshop offers aspiring young filmmakers the chance to work with a professional filmmaker for a full day.

You'll learn about the whole process of producing a film - from creating story and characters, camera shots and storyboard, through to filming and editing.

And at the end of the day you can enter your very own cinematic masterpiece in the 'Young Indies Film Competition' as part of the Aberfeldy Film Festival.
